As Manager of Gas and Electric Com-pany After Seven Years.

William E. Haskins, superintendent of the Williamntic Gas and Electric Light company's local plant, has resigned, to take effect on May 15. Mr. Haskins has been superintendent of the plant for the past six years and for the past year had been superintendent of the company's plants in Rockville and Stafford also, therefore serving the company's seven years. During all that time he has been a resident of this city and made a large number of friends who will learn with regret that he is to leave the city.

Mr. Haskins would not state where he is to locate, but did say that he liad resigned to accept a more favorable offer in the same line of business and that as a result he would eventually move his family from the city. No one has been definitely secured to fill the vacancy caused by his resignation.

Windham Street Nine Wen. also won the first game of the series by the score of 13-7. They also won the first game of the series by the score of 11-10. The same nines will again try conclusions this (Friday) afternoon on Windham field. The St. Joseph's school outfit is confident that it can worst the Windham streets in this contest and thus have a chance for the series. The batteries for Wednesday's game were: Windham street, McQuillan and Byadbury; St. Joseph's, Harrington and Donahue; umpire, Mallette.

\$1,000 POWER BOAT Mysteriously Burned Early Thursday Morning Near Canoe Club House.

About I o'clock Thursday morning the handsome power boat Spray, built and owned by Walter M. Olin of 70 Park street, was destroyed by fire at its moorings on the Willimantic river east of the Nipnet Canoe club house. The fire was first noticed by Shaun Sullivan, the night flagman at the Bridge street crossing, his attention being attracted by the lighting up of the sky from the flames. When he arrived there the boat was nearly burned to the water's edge.

The boat was one of the most expensive ever constructed in this city, taking one year of Mr. Olin's spare time to build. It was 18 feet in length, with a 49-inch beam, the pattern being from a Brooks model. The boat was constructed of oak and cypress and the interior was finished in mahogany, leather and brass. The boat was squipped with an automobile top, wind shield, nine-inch searchlight, with a Gile engine. It would accommodate ten persons

Mr. Olin only launched the boat Friday evening of last week and had made but two trips on the river. He was in his boat Wednesday evening. doing some work, and when he left at \$15 p. m. everything was all right. Mr. Olin valued the boat considerably in excess of \$1,000. There was \$730 worth of material in the craft, almost \$200 being in brass trimmings. About all

Chimney Fire.

Box 61, near the main office of the American Thread company, was pulled in Thursday morning at 6.50 o'clock by an overaxcited member of the family residing at 32 Carey Hill. The fire was in a chimney that smoked quite a bit but was not at all dangerous. The Monties, Hooks and Alerts quickly responded and the last named companies were immediately sent back to their respective stations by Chlef Wade U. Webster, who with a couple of firemen and hand extinguishers soon stifled the small fire. The damage was inconsequential.

The woods are full of imitations of Cottolene—because Cottolene has made a pronounced success as "the perfect shortening." These imitations are of inferior quality, are packed in tins with ordinary removable covers, and depend largely upon substitution methods for their sale. When you ask for Cottolene be sure you get Cottolene.

There's only one Cottolene-packed in patent air-tight tin pails, with our trade-mark on the face of the pail. It pays to pay a little more for Cotto-lene because of its superior quality and the fact that, being richer, it will go one-third farther than lard or any of
